Did you know one pint of blood has the potential to save up to three lives? In the spirit of pikuach nefesh, the Jewish value of saving a life, come join us for an indoor volunteer opportunity and donate blood to the American Red Cross.

The American Red Cross follows the highest standards of safety and infection control, and volunteer donors are the only source of blood for those in need. Blood drives benefit patients who need surgery, victims of car accidents and other emergencies.

Blood donors must bring ID.
